Inspecta Roadmap

Q1

At the start of the journey of Inspecta our goal is to build the community of our telegram, proceed with a stealth launch, light telegram marketing, building our Website and social media platform.

Q2

In the second milestone our main goal is to focus on marketing to keep gaining holders for Inspecta with boost marketing spread out on several social media platforms, while applying for our BSC Logo and Information to Dextools also, while providing proof of work to our investors.

Q3

This is the development stage where the core team will be aiming to releasing our utilities while gaining trust from our investors by releasing beta versions of the utility for our community to try out, this will be done side by side with large marketing and AMA's to gain a higher and stronger floor, while we apply for CMC and CG.

Q4

This is the next step of Inspecta where we keep growing and creating a larger ecosystem for our utilities, gaining more experiance and trust with our abilities of proviiding proof of work and apply for CEX listing and media exposure with partnerships with large platforms to gain more investors and expand Inspecta to become a massive platform.
